CHINA SUES FOR PEACE.

United States Simply Reiterates Demands It Has Made Heretofore.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Aug. 12.—(Exclusive Dispatch.) China's imperial edict authorizing Li Hung Chang to negotiate with the powers for peace in that country was made public by the State Department today, and an answer was handed to Minister Wu by Acting Secretary of State Ade. This edict merely gives Li Hung Chang authority to carry on negotiations, but provides that all his actions must be referred to the imperial government at Peking for sanction. This means that China is withholding to herself infinite means for dilatory with the powers in the negotiations which she proposes to open.

The State Department's answer to the edict was not made public. It was given to Mr. Wu this afternoon, and at the same time forwarded to all foreign governments for their information. The Times correspondent learns, however, from excellent authority, that the United States tells China it will be glad to negotiate for the restoration of peace if China will show her good intentions by carrying out the conditions laid down in President McKinley's letter to the Chinese Emperor, dated July 22, and that until these conditions have been carried out, this government cannot even enter upon negotiations.

Information is had that this proposition was rather bluntly put to the Chinese edict went to all the powers at the same time. The fact that the United States takes this decided stand upon the matter of negotiations will likely influence the other governments, so that they will present to China a solid front against any negotiations until China herself shows her good intentions.

CONGRER WILL HOLD OUT.

Brave Words from Besieged American Minister.

WASHINGTON, Aug. 12.—(By Atlantic Cable.) The sooner we can get out of this trouble the better, for it is inconvenient for the Chinese government and unsafe for ourselves. This is a message received last evening from Sir Robert Hart, dated Peking, August 8, and sent in cipher and sent to the Chinese Maritime Customs Office in London.

Commenting upon it, the Morning Post says: "It would seem to indicate that the Chinese government is anxious for the safety of the foreigners, or at any rate, anxious to get them safely out of Peking, while Sir Robert Hart, evidently, expects that they will get all smooth or later."

Sheng, director-general of railways and telegraphs, according to a Shanghai dispatch to the Standard, expressed grave fears for the members of the legations whom the defeated Chinese troops return to the capital.

The Austrian naval commander reports to Vienna that the allies decided to rest for three days after the taking of Tien-Tsin.

A dispatch to a news agency from Tien-Tsin says: "Junks and steamers block the river beyond the advanced posts of the allies for a considerable distance; but the dryness continues, and the country is in good marching order, subsidiary forces having made order, subsidiary forces having made order, subsidiary forces having made order."

Korea, according to a Seoul dispatch, consents to Japan sending troops there to provide for emergencies. Gen. Grodekoff reports to the Russian War Office the occupation of San Chuan, and the passes across the Chingau Mountains. Orders have been issued for the formation of two additional Siberian army corps. A semi-official Shanghai telegram, published in St. Petersburg, describes the sending of British troops to Shanghai as "with-out the least necessity."

The reception of a message from the Italian Minister in Peking effectually disposes of the report that he had started for Tien-Tsin.

The Daily Mail publishes an interview with the Chinese Minister in London, Sir Chih Chen Lo Feng Lan, quoting him as urging the foreign ministers to leave Peking.

"Some people say," remarked Sir Chih Chen, "that the Europeans are still besieged. It is not so. When you are besieged you are not allowed communication with the outside world; but you are receiving a constant stream of messages, from Sir Claude MacDonald."

Commenting on the various propositions made by China to the powers, the Daily News well expresses the predominant British opinion as follows:

"What the Chinese authorities in effect say, is this: 'Stop your advance upon Peking and we will give you ministers a safe conduct to Tien-Tsin. If you do not at once instruct them to leave Peking we cannot answer for the consequences.'"

"To this abominable and not very thickly-veiled threat there can be only one answer, and Mr. Delcasse has given it in very cogent terms. The ministers cannot leave except under absolutely convincing guarantees of safety. In the speedy advance of the allies lies the only real hope of saving the ministers."

In the same vein the Daily Telegraph says: "American statesmen take up what seems to be the only logical attitude when they tell Mr. Conger they have never for a moment entertained the idea of his placing himself at the mercy of a Chinese official plodger."

Chen Yen Tsun, the Cantonese who was the Inspector Ambassadors of China at Queen Victoria's jubilee, and who is now in banishment at Hui, has been ordered, according to a Shanghai dispatch, to commit suicide on an imperial edict having been issued to that effect.

The Shanghai correspondent of the Times, referring to the fate of Chen Yen Tsun, says he was executed and that no reason is given for this barbarous act. The same correspondent understands that Li Shun, vice-president of the Board of Revenue, has been imprisoned on a charge of rendering

CONGRER SAYS HE WILL HOLD OUT FOR CHAFFEE.

Minister Wu was an early caller at the Department of State. He was into conference with Acting Secretary Ade at 10:30 o'clock, having previously made an engagement for that hour, and presented to Mr. Ade a copy of the imperial edict, which he had received last night. It had been transmitted to him in the Chinese Foreign Office cipher, and its translation and preparation for submission to the State Department had occupied much of the night.

Minister Wu remained with Secretary Ade for three-quarters of an hour, discussing the edict and the probable response to it of this government. Shortly before Wu left the department Secretary Root joined the party, but remained only long enough to obtain a copy of the edict and discuss it briefly.

Minister Wu expressed the belief that the edict presented a means of peaceful adjustment of the trouble and that the request of the Chinese government for a cessation of hostilities pending peace negotiations, was entirely reasonable.

Immediately upon the conclusion of the conference the text of the edict, together with the details of the call of Minister Wu, was communicated to President McKinley at Canton. The President's reply, as yet, has not been received. Later in the day, Acting Secretary Ade made public the text of the edict in the following statement:

The State Department makes public the following imperial edict, appointing Viceroy Li Hung Chang as Envoy Plenipotentiary to prepare a cessation of hostilities, demonstrations, and negotiations with the powers, a copy of which was delivered by Minister Wu to the acting Secretary of State this (Sunday) morning at 10:30 o'clock.

"An imperial edict was forwarded by the privy council at Peking, under date of the 14th day of the seventh moon (August 8) to Gen. Yuan at Tai Nan, Shantung, who transmitted it on the 17th day of the same moon (August 11) to the Tsohai at Shanghai, by whom it was retransmitted to Minister Wu, who received it on the night of the same day (August 11)."

"The imperial edict, as transmitted by the privy council is as follows: 'In the present conflict between Chinese and foreigners there has been some misunderstanding on the part of the foreign nations, and also a want of proper management on the part of some of the local authorities. A clash of arms is followed by calamitous results, and has caused a rupture of friendly relations which will ultimately do no good to the world. We hereby appoint Li Hung Chang as our Envoy Plenipotentiary, with instructions to propose at once by telegraph to the governments of the several powers concerned for the immediate cessation of hostilities, and for any consultation which might follow this delay, and insisted that the European governments order their representatives to leave Peking. To this communication, Mr. Delcasse, Minister of Foreign Affairs, sent the following telegram:

"No order to depart from Peking will be given to our Ministers, so long as the route is unsafe. If a casualty occurs the responsibility will be entirely with the Chinese government. Its strict duty is to protect foreign ministers, even more than its own."

"If it be true that the Chinese government has great difficulty in defending itself, and in defending itself against rebels, it should order its troops to stand aside before the allied forces. This would render from the position from Tien-Tsin to the capital, and would accomplish the work of protection which is encumbered."

"The Chinese government should understand that the only means of protecting the sincerity of its designs and of limiting its responsibility is a cessation in the placing of obstacles in the way of such an arrangement."

COMPLAINT BY CHINA.

The Foreign Ministers Slow in Quitting Peking.

Tsung Li Yamen insists they should be ordered out.

PARIS, Aug. 12, 10:30 p.m. (By Atlantic Cable.) The Tsung Li Yamen forwarded through the Chinese Minister in Paris, Tu Kung, a message to the French government, complaining of the "tardiness of the foreign ministers in Peking in replying to the offer of the Chinese government to conduct their escort."

The message proceeded to say that the Tsung Li Yamen declined to be responsible for any casualties which might follow this delay, and insisted that the European governments order their representatives to leave Peking. To this communication, Mr. Delcasse, Minister of Foreign Affairs, sent the following telegram:

"No order to depart from Peking will be given to our Ministers, so long as the route is unsafe. If a casualty occurs the responsibility will be entirely with the Chinese government. Its strict duty is to protect foreign ministers, even more than its own."

"If it be true that the Chinese government has great difficulty in defending itself, and in defending itself against rebels, it should order its troops to stand aside before the allied forces. WU SMILES ALL OVER.

Appointment of Li Pleases Him Immensely.

Thinks Both Chinese and Powers Have Confidence in Him.

WASHINGTON, Aug. 12.—Minister Wu is very much elated over the appointment of Li Hung Chang as plenipotentiary to arrange peace. He sincerely hopes that it will be accepted by the powers, as the results attained, in his opinion, would be satisfactory to all concerned.

"I think Earl Li's designation a capital one," he said. "Aside from the Emperor and Empress, he is the highest official in the Chinese government, and he has the implicit confidence of all Chinamen. In many ways he is eminently qualified to act as an intermediary between his own government and the representatives of the powers which may be appointed to act with him. He has done excellent work for the Chinese, and they have great confidence in his discretion and wisdom."

"Earl Li has traveled over a large part of the world; has met many of its foremost people, and they are familiar with his ability. I hope his appointment will be acceptable to the powers, and I know 'the results of the negotiations conducted by him will be satisfactory alike to Chinese and to foreigners, for he will be just and honorable in all his dealings.'"

SQUARE-TOP COMPLIANCE.
WASHINGTON, Aug. 12.—This government, supplied by a determination to effect the rescue of the legation in Peking, takes advantage in its reply to the edict to reiterate the demands previously made on China. These demands first were made by the President July 22, and subsequently were

PAO TING MASSACRE.

French Report Makes Seven Thousand Dead.

Native Christians on the Line to Hankow in Peril.

PARIS, Aug. 12.—(By Atlantic Cable.) According to dispatches received today from the French naval command, native Christians and missionaries in the Pao Ting massacre, about five hundred killed from Peking, are in great danger, the point being entirely outside the sphere of the allied operations. He has also received news regarding New Chung, captured August 4, which, as he is advised, has since been evacuated. According to the dispatches from the French command in Peking, eight missionaries, one priest and one Chinese missionary have been killed. He says a Danish company has held a cable from Pao Ting to Taku.

The Paris publishes the following: "The procurator-general of the consular mission of the French Republic in Peking, Mr. de la Motte, has been advised by M. de la Motte, according to the French consul-general at Shanghai, received yesterday, 700 Christians have been massacred at Pao Ting, east of Peking. No other details are at hand."

If such startling news has been received by the French Office it has been kept secret, as the usual news channels have not been made acquainted with anything of the kind.

"VEGETARIAN" VIOLENCE.

THREE SIVATOW CHAPLAINS GONE.

HONGKONG, Aug. 12.—(By Atlantic Cable.) United States Consul-General Wildman has received a telegram from the Baptist mission of Sivato, province of Kwang Tung, saying, three more chapels have been demolished, and that there had been much looting of mission property.

The dispatch adds that an attempt was made upon the life of the preacher there, and that the officials are taking no action in the matter. The troubles are attributed to the "Vegetarian Society," so-called.

PINCHON'S DELAYED MESSAGE.

PARIS, Aug. 12.—The French Foreign Office received this morning from M. Pinchon, French Minister at Peking, what is evidently the dispatch which he referred to in the first message received from him, published here last Thursday. "My cipher No. 1, dated August 12."

It is as follows: "From June 29 to July 17, Chinese troops besieged, fired upon and bombarded us. Four legations have been burned and destroyed. We will hold out, thanks to the heroic defense of the French-Austrian detachment. Our loss is sixteen. The general loss is sixty more and 110 wounded."

"All the missions in Peking have been burned save the Pao Ting mission, which is standing, but its condition is uncertain. Despite our heroic defense, the personnel of the legation are in good health."

The bombardment ceased July 17. Offensive works, Chinese barricades, and, intermittently, shots continue without victims."

"The government is attempting indirectly to negotiate with us for our departure, but we cannot leave without some protection other than that of the government."

"Our forces, ammunition and provisions almost exhausted. The interrupted attacks may recommence and place us at the mercy of the Chinese government. July 19 I received a telegram which I was not allowed to reply to in cipher."

FROM ITALIAN LEGATION.

ROME, Aug. 12.—(By Atlantic Cable.) President Loubet, accompanied by M. de la Motte, French Minister of War, and M. de Lamoignon, Minister of Marine, arrived here this morning and proceeded immediately to the reviewing grounds, where they inspected the Chinese expeditionary corps. There was much enthusiasm. After the review, M. Loubet, taking his position on the reviewing stand, to present the flag to the corps.

"In the name of the republic I deliver to you the flag of the expeditionary corps. They are confident of your loyalty and patriotism, which I guarantee."

"Honor the fatherland," is your motto. Soon you will subscribe upon their folds the name of a campaign rendered necessary by the violation of our rights, the disregard of our legitimate interests and the brutal assault made upon those who represent us in China."

"Officers, non-commissioned officers and soldiers, let these flags be to you a sacred gift. They recall the duty of France, a mission confided to your courage, to exact from the Chinese the essential laws of civilized countries have been seriously violated, the chastisement of the guilty and to impose some vivid indemnities for the past with necessary guarantees for the future. They tell you that the heroism of the expeditionary corps, the defense of civilization, those wearing the French uniform must not yield to discipline, endurance or courage to any."

"I am sure that you will wait with patience, but not with alarm, the time which will permit us to share with you and your comrades of the fleet and the army, the satisfaction and gratitude."

At a luncheon following the ceremony M. Loubet, replying to a toast to his health, said: "I came here as I went to Cherbourg, in order to dine with the French and Italian army which party spirit attempts to create, and which it wishes to perpetuate by trying to dig a ditch between the army and the nation."

"This monstrous effort will fail. It is already failed. I am certain. It is not the army a part of the nation itself. When military service is completed will not the men of the army return to their own firesides? The army and the nation are inseparable. Only inspired with the devotion to France and the republic."

The transport Melbourne, with a

thousand troops of the China expeditionary corps, left at midnight. The strike of the Bremen of the Transatlantic Steamship Company, which because of the arrangements for the departure of the transports. About fifty arrests were made. M. de Lamoignon was appealed to for mediation, and after a conference he decided to act as intermediary.

RED PEPPER GALORE.

Women Make Attack Upon Police Officers.

Polish Catholic Church the Scene of a Queer Fight.

NEW YORK, Aug. 12.—(Exclusive Dispatch.) A Sun special from Wilmington, Del., says that in consequence of a dispute between Father Hutz, pastor of St. Hedwig's Polish Catholic Church, this city, and a faction of the congregation, Sergeant Trucker and four policemen were called on this morning to escort the priest to church.

When they arrived they found the vestibule crowded with women, while a crowd of men stood on the outside. When Trucker and Officers Ford and Flynn entered the building to clear the vestibule, leaving the priest outside, the women made a dash at them with red pepper. The officers screened their eyes; made a flying wedge, and pushed on. The air was full of pepper. Ford seized one woman and fell with her, and was set upon by two women and kicked and beaten. Capt. Black and a posse had been called in and in a short time three women were placed under arrest and locked up. The policemen fled from the scene. Services were then held by the priest.

The policemen were covered with red pepper and some of them were hurt. It is in their eyes. It is estimated by Capt. Black that half a barrel of pepper was on the floor of the church vestibule.

DEATH RATE GROWING.

Alarming Conditions in the City of Honolulu.

Board of Health Discussion—Judge Esteo Opens the Courts.

HONOLULU, Aug. 12.—(Wire from San Francisco, Aug. 12.) The health reports for the month of June and July show an alarming increase in the death rate, especially the only complete records. In June the number of deaths per thousand was 25. In July, 40.8. The increase for the past few years, as shown by tables just compiled, has assumed a good deal of discussion. In 1928, the death rate numbered 48. Since then the figures have jumped to 59, 75, 92, and this year 114.

Consumption heads the list of diseases, causing death in almost every month, and there is agitation for strict measures to quarantine patients. The Board of Health is discussing a quarantine act, which would, as many people come here from other places to enjoy the mild climate, and it is believed that there is a source of danger to the population. Typhoid fever has also claimed a good many victims lately, a slight epidemic having developed in one district of Honolulu.

The United States troops in Hawaii were formally inaugurated today by Judge M. M. Esteo.

The Skagway Council has decided to tax foreign ships landing there. The body of Walter Monahan, one of the victims of the Florence S. disaster, has been found.

Three men from Douglas Island and a Yukon man were shot with a rifle by an Indian hiding behind cabins August 6.

Big Arrangements Being Made for Bryan in Kansas.

(A. P. NIGHT REPORT.)

CHICAGO, Aug. 12.—Senator Heltzel and ex-Senator Dubois, who left for their homes tonight, their conference with the officers of the National Committee was satisfactory. The three fusion elements have a tentative agreement by which the State offices are to be divided between the Populists and the Democrats, and the Senatorship is to go to Fred Dubois, representing the Free Silver Republicans.

"No trouble will be experienced in arranging affairs," said Senator Heltzel. "The Populists nominated Presidential electors, but authorized the Campaign Committee to take any action which is considered necessary to secure harmony. The Bryan and Towne electors will be withdrawn and the other matters proposed will be approved by the People's party."

NOTIFICATION OF BRYAN.

TOPEKA (Kan.), Aug. 12.—Kansas Populists and Democrats are combining to make the Bryan Populist notification at Topeka, August 23, one of the biggest political events that has ever taken place in Kansas.

"I do not think," said Simpson, "that women should take the stump and make speeches."

French Battleship Brennus Cuts Framee in Two.

Smaller Craft Sinks With Three Officers and Many Men.

(A. P. NIGHT REPORT.)

PARIS, Aug. 12.—(By Atlantic Cable.) During maneuvers of the French fleet, the French battleship Brennus, a collision occurred between the first-class battleship Brennus, flying the flag of Vice-Admiral Fournier, commander of the French fleet, and the torpedo-boat destroyer Framee of thirty-one tons displacement.

The Framee sank immediately. Only a small portion of the crew, consisting of four officers and fifty-six men, were saved. Details are meager. The accident was due to the fact that the Brennus, which was a recent addition to the French navy, turned to the right when ordered to the left.

LATER, it is now known that four of the Framee's crew of fifty-six, fourteen were saved. The losses include three officers, Capt. Fleuret, the second lieutenant and the chief engineer, Admiral Fournier in a dispatch from Cadix says that at the time of the accident the Brennus was steaming ahead of the Framee on the left. The flames and the torpedo-boat destroyer were exchanging signals, when the latter approached too near the Brennus. The captain of the Brennus ordered his helmsman to steer to the left, while he increased the speed. The man misinterpreted or badly executed the order, steering to the right, which brought the destroyer under the stern of the Brennus. The Framee being cut in two.

out regard to family seniority, etc. When memorialist arrived at his post in Hangchow as Governor of the province, he found that a certain Lai Shou-yung was salt collector of the Tsung-tung salt district of Chekiang. As the said Lai Shou-yung is a cousin of the memorialist, being descended from the same ancestor, and belonging to the same district of Chekiang as memorialist, and furthermore, as memorialist's rank gives him full power, as narrated above, in authority over the people; punishment, etc., it is but right that this case of kinship be reported to the throne, with the suggestion that the said Lai Shou-yung be allowed to repair to the province of Kuangtung as an expectant magistrate of the first class, in order that the requirements of official etiquette and the laws of the empire be observed. Rescript: Let the board of civil appointments take note. It will be notified that it is thus, in its full self-explanatory text and the brief rescript, that the throne does away with the memorialist and refers the subject matter to the "proper board."

LYNCHING TALKED OF.
With the serious case of assault on the persons of two little ten-year-old girls placed against its name, Henry C. Felt, an old man employed as a gardener at the home of Dr. A. S. County of Los Angeles, was placed behind the bars at the City Jail yesterday afternoon.

It is said that Felt, who is about 50 years old, enticed the children into the extensive grounds at Dr. Shor's place shortly after noon yesterday, by giving them flowers, and took them to a secluded spot, where he attempted to take undue liberties with them. The children ran to their home, and the enraged father started out to punish the aged offender. Reports of the assault spread throughout the neighborhood, and a lynching was talked of for some time; but Officer Ackenside heard of the affair in sufficient time to prevent any display of mob violence. The police officer located Felt on Twenty-third street, near San Pedro, and hurried him to the Police Station. Very little information could be obtained about the case, as the parents of the two children decline to make a statement. That Felt will be charged with the offense is admitted, however, and the trial will reveal the facts.

CASTORIA

The Kind You Have Always Bought
Bears the Signature of *Dr. J. C. Felt*

THE WANDERING SLOUNGER.
Oh reel-a-roo, a sheel-a-pop-a-ee-oo—
Shick-a-lack, a shick-a-lack a sheel-a-roo—
Wild a humbug-tiddle an' a ta-lay, C'mellus de Wand'ring Slounger!"

THIS STREET.
It buzzes and roars, flinging dust in the eyes and a stunning noise in the ears of the hurrying wayfarer who sees in it all naught but a jumble of criss-crossing lines of traffic. The "reel-a-roo" yet the patient watcher who goes up and down the land hunting out of the crowd the one who is the melody that is always there, is able to discern the thread of human impulse, and hear its tender vibration sounding through the harsher notes of the street. The heart and its heart is human; but few realize that the crowded thoroughfare is but a scene shouted from the stage of a thousand lives, where the characters cross and re-cross, weaving the fabric of the drama of the human soul.

Hear the feet upon the pavement, with their tap-tap-tap. Like a knocking of the Future, coming rap-rap-rap! There's an ecstasy of worry in the hurry of the feet. And a longing after a little farther down the street!

"Spread an' Heeky! All 'bout de terrible battle in Chiny!" The split air staggers together again, and the apprehensive glances nervously upward to see if any more bricks were jarred from the coping of the City Hall.

One of the grimy little chaps was sitting upon the curb with a bloody handkerchief bound round his temple. A comrade supported his head with evident sympathy showing in his face. The slounger halted and stared at the sufferer rolled up his pathetic eyes, but said nothing. His comrade answered for him.

"Jimmie's been up against de real thing!" he grinned, sorrowfully. "Tried to shove his mutt too a delivery wagon—at his kick!" The slounger contemplated the bloody bandages and the white, sick face of the child.

"Better go home and go to bed, old fellow!" he suggested. "You've got de worst case in 15 to 25 days. 100-page Book Free."

The sufferer shook his head weakly, and staggered to his feet. Then his father up the street. "Careful, now, Jimmie," admonished the Mentor. "Keep a wide look on yer feet, or 'a' de doctor will be at de cold board down at de undertakin' parlors; see?"

But the other moved away; his dry, pale lips struggling with the cry—"All 'bout de terrible battle in Chiny!" He there not patios there, when the boy who ought to be racing over green fields and splashing, his bare legs through running brooks sets his spirit against the hard street and struggles with the cruel tyrant for existence?

Hear the feet upon the pavement, with their tramp-tramp-tramp: Passing underneath my window with a stamp-stamp-stamp! Like an anvil chorus beating a potential roundelay— Past and Future all forgotten in the hurry of Today!

At a recent "matron's contest," a certain lady and the slounger dares not tell her name—she was exceptionally well, and was accepted the firm congratulations of her admiring friends.

"My dear," said a smiling old lady, "judging of the matter, and having a very complimentary expression from a gentleman!" "From a gentleman? And what was it, please?" "Why, he said you did very well, indeed—for a greenhorn—for a greenhorn!" "Indeed!" flamed the indignant repartee. Then he is no gentleman!" "Well," my dear, believe he calls himself a gentleman!" The other compressed her lips continuously. "Who is he?" she demanded. "Your husband?" "Oh—ah—yes," she demurred. "Indeed—indeed—quite a compliment, indeed—from him!" This was a tragedy indeed.

Enlightens Mr. Jones As to the Two Pushes.

Why the McLaughlin and Snyder Elements are Loving Job Other.

Mr. Jones, in one breath, declares that "we should have treated the Cubans" and in the next breath he declares that we have treated the Cubans very shabbily indeed, and that we ought to have our heads in shame and get out of Cuba as soon as possible, or words to that effect. Consistency is a kind of jewelry on which Mr. Jones does not appear to be "long" just at present.

When a campaign argument from a silver state to the effect that Bryan should be elected because he favors the silver coinage meets one coming from the East to the effect that it is perfectly safe for Gold Democrats to support him because, if elected, he would be unable to carry out his financial policy, the result is not that conciliatory that chemists call a homogeneous compound.

The mere fact that Dan Burns, the discredited and defeated would-be political boss, is supporting the candidacy of McLaughlin and deprecating his nomination, ought to be sufficient to defeat the latter's aspirations for the nomination for Congressman from this district. Have not the Republicans in all sections of California had enough of Burns and his methods?

We could probably have worried along, for a time at least, without Andrew Carnegie's views on the Chinese situation. But then it appears to be absolutely necessary for Mr. Carnegie to talk for publication on every subject, and perhaps he may as well talk about China as anything else.

Bryan is, we are solemnly told, likely to yield his personal inclinations and consent to travel and speak in the campaign against this year. One can scarcely conceive what a struggle it must have cost him to overcome his inclination to stay quietly at home and attend to his fallowing.

Before the Chinese government appeals to us to protect it from the presence of British forces in the Yang Tze Valley they should at least show itself able to protect American subjects from the presence of the Boxers.

The world has never really known until now how much need there was for missionary work in China.

REMEMBER THE CAUCUS.

THERE IS A DUTY FOR REPUBLICANS TO PERFORM.

[Pomona Progress, Aug. 12.] Three weeks ago, if a person suggested to the politicians in charge of James McLaughlin's campaign that Byron L. Oliver would be nominated for Congress, he got only a laugh and the suggestion was dropped.

"No, I don't quite understand what it was," said Mr. Jones, a scratcher in the McLaughlin campaign.

"Why, it was understood that his back in the push was to have good for all this time," said Mr. Jones.

The Red Flag Meeting in Los Angeles Last Evening.

Last night the local branch of the Socialist Democratic party, and the boiting faction of the Socialiste Labor party began their honeymoon. The first meeting since they became a united body took place in the evening at Woodmen's hall, at No. 125 South Spring street. Meanwhile the regular meeting of the Socialiste Labor party, which the breach occurred, met as usual with dogged pertinacity in its theory. They are as November, but a heavy rain fell, so that one election and only an election.

This audience was quite interesting. One of the men who all the time was quarreling with a force military was a little bit of a fellow, and he was called to time by the police. He was not sticking to the point, and he was the voice of peculiar acuteness. A certain spring in his step, and he was saying that he had

The Socialist-Labor people are very severe on their botling bed-fellows. They call them masqueraders, and their apostle, Joe Harriman, who is on the staff of the *Washington Post*, is called a traitor. They have also scornful things to say of the Socialists with their "peace" and "non-resistance." They say, however, only in private conversation.

At the meetings were devoted to the discussion of ponderous theories. There is something uniquely interesting in the Russian Socialists' way of thinking a little sad and pathetic, and, if

you will see it that way, something that is not to be taken too seriously. Confidently to the idea that they are the advance guards of a great movement toward a sweeter world.

Last night there was nothing violent about either meeting except the decorations in the hall of the Socialist-Democratic contingent, the speaker's chair was draped with the American flag and decorated with the red flag.

In the other hall there was behind the speaker a huge placard printed in big bold type, with this inscription:

"Labor Unionism is the only way to save the world."

Buffalo, Tennessee. Chippewick, Cook d'Alene, Pullman, Chicago.

[illegible]

"How are we to avoid red bloodshed?" demanded as one of the speakers.

"Well," said the man, "the question had been fired by taking steps back."

MUCH PROPERTY TAXATION

The taxation of church property in Minnesota was the topic of Rev. J. M. Casser's sermon this morning before the congregation of the First Methodist church at Grand Army Hall. "Render unto Caesar," said the things which are God's,"—Matthew xxii, 21, was the text, and he said:

The amendment to the State constitution, permitting churches to be exempt from taxation, is to come soon before the voters of this State. McKin

California. This question is more important, but to South of the American continent does not ask for the protection of all churches, but merely for the churches and the ground on which they stand. One reason that there is a lack of respect for churches in California is because she has imposed this ban on them. California is the only state in the Union that takes churches and thereby discourages their influence in the states and foreign countries. It is their work as far more than the equivalent for the abatement of the shadow of the Vatican that they do not assess them. Even uneducated Church in Italy is not so bad to pay.

PARAGRAPHERS.

A Bad Dog.

A vicious dog attempted to maul the right leg of Charles Marino yesterday morning, while that unlucky man was strolling along New High street. As a result of the attack, Marino sought the aid of the Police Surgeon, who dressed the torn limb, and sent the man to his home at No. 612 Castelar street.

Rough Music.

There were all sorts of holes in the band concert at Los Angeles Park yesterday afternoon. The work of the musicians was rough and amateurish from beginning to end. It was worthy of the Squashout Band, but not of professionals. The big bass horn was particularly distressing. We used to hear good music at the park.

Pill from a Wagon.

While preparing to go into the country for a load of hay early yesterday morning Henry Ward fell off his wagon at the corner of San Fernando and Ann streets, and came a big crash in the back of his right hand. He came to the County Hospital, where two stitches were taken in the wound, after which he went to his home at No. 1243 Macy street.

Street Car Air Brakes.

The first of the cars of the Los Angeles Railway Company to be equipped with air brakes will be put in service today. It is of the type of the Boye Heights and Westlake Park lines, and is as rapidly as possible the large cars of the company will be equipped. It has been found that some of the brakes on this line are wholly unreliable and motormen have to resort frequently to the reverse lever to prevent accidents.

Old Man's Mishap.

While endeavoring to assist some women in entering a boat at San Pedro yesterday afternoon, Edward Smith, aged 60 years, slipped and fell in such a way that his right leg was broken. He was brought to this city on a Southern Pacific train, and sent to the County Hospital, where the fractured bone was set. At last reports he was getting along nicely, without any danger of serious results from his mishap.

Will Decide it Today.

In the United States Circuit Court this morning Judge Ross will render his decision in the case of the Los Angeles City Water Company vs. the City of Los Angeles, in which the legality of the ordinance which raised the rates is involved. In this ordinance the city made an almost flat out of 40 per cent, and of course the company took the matter to the courts. The decision will have a great bearing upon the final settlement of the litigation between the city and the company over the possession of the entire waterworks system.

State Inspectors.

Yesterday morning the following members of the State Board of Health inspected the Los Angeles State Normal School: Dr. D. D. Crowley of Oakland, Dr. C. A. H. of San Francisco, Dr. W. J. Hanna of Sacramento, Dr. W. R. Hill of Los Angeles. Owing to the absence of the secretary, W. P. Matthews of Sacramento, it was not possible to hold the meeting set for yesterday afternoon in Dr. Hill's office. Matthews missed a train, and will probably be in town today. This morning the board will visit the insane asylum at Highland. Wednesday the board will go to San Diego, visiting the State Normal School and quarantine station. This afternoon the board will probably hold a meeting in the office of Dr. Hill, after the return from Whittier.

FULL ATTENDANCE DESIRED.
STATE COMMITTEE WANTS DELEGATES WHO WILL GO.
Col. George Stone, chairman of the Republican State Central Committee, has addressed a letter to the chairmen and secretaries of all the Republican county committees in the State, in which he earnestly urges the election of only delegates to the State convention. This request is issued because of the annulment of the Stratton primary law provides the madon peninsula. In his letter Col. Stone says: "The convention will be held just preceding a great event in the history of our State. It will not only constitute the opening of the campaign on the part of the Republican party and be conducted in a manner as will arouse the fullest interest and enthusiasm, in which the committee will be aided by the people of Santa Cruz, who are proud that a State convention is to be held, for the first time, in their beautiful city, and who will spare no endeavor to surpass the attractions and hospitality of other localities in which similar political gatherings have met in the past, but, aside from this, it will add to the brightest star of the Golden West, this anniversary, marking the half-century of the founding of the Republic, and the progress, to be celebrated in the city of San Francisco with a magnificent besting of the madon peninsula. California who can should fail to be present and participate."

HOW WE READ.
RECENT EXPERIMENTS REGARDING MOTION OF THE EYE.
[SPECIAL CORRESPONDENCE OF THE TIMES.]
NEW YORK, Aug. 11.—Hitherto two views have been held as to how we read. One is that reading is effected solely by spelling, each letter being grasped and perceived for and by itself; the other is that the words are not grasped exclusively letter by letter, but in small groups of letters in the same space of time. Erdmann and Dodge have ascertained that while the head was kept in a steady position, in reading an easily comprehensible text, there is a regular change between the two methods. The number of pauses, however, is much less than the number of letters over which the eye glides, and its position remains, in a given case, almost unchanged, as long as the words are used. If the text becomes more difficult, and where attention is given almost exclusively to the formation of words, as in printers' proofs, the number becomes three times as large. Both investigators came to the conclusion that reading is effected exclusively during pauses for rest. On an average, the eye glides, during a definite movement on the line, over a space of 1.15 to 2.00 centimeters, a space that contains about twelve to thirteen letters.
